

Washington College Policy for Health Requirements

All Washington College Students are required to complete and submit the following:

1. A completed *Washington College Health Form* signed by a licensed health care provider (MD, NP, PA). The date of the physical examination must be within 6 months or less of the due date of completed health forms.
2. All required immunizations – verified by the signature of a health care provider (see policy on required immunizations).
3. The student health history – to be completed by the student.
4. Emergency contact information and permission to treat form – to be completed by the student. (Parental signature may be required for students under the age of 18 as of August 20.)
5. Proof of health insurance - all students are required to demonstrate proof of health insurance or purchase the college-sponsored health insurance plan. For students who do not purchase the college-sponsored health insurance plan, a copy of the student's insurance card (front and back) must be mailed to Health Services along with the completed *Washington College Health Form*.
6. Students who do not have health insurance or do not complete the on-line waiver form will be billed for the college-sponsored health plan automatically.
7. International students must purchase the college sponsored insurance plan.

All completed forms and proof of insurance information is due on July 15th for students entering in the fall semester and January 15th for students entering in the spring semester.
